

# **Annex 12:**

## **Warranty requirements**

La Vendimia Solar  
Installation

A handwritten signature in blue ink, appearing to read "Gaudin", is located in the bottom right corner of the page.

## **1. Modules**

No less than the standards set out in the Trina Solar Co. Ltd. Limited Warranty – Document PS-M-0135 Rev. O dated June 1 2020.

## **2. Inverters**

Standard sixty (60) months warranty starting 90 days after the date of product shipment with the terms and conditions signed between XXX and the Customer (or, with the consent of Owner not to be unreasonably withheld or delayed, such terms and conditions as are more favorable to Owner)

During the Warranty Period, in the event that a Covered Product is found to have a non-conformity or defect in the workmanship or materials occurring during normal use of the Covered Product, XXX will, subject to the terms set out below, replace the Covered Product with a product that is functionally equivalent (in relation to feature, function, fit compatible, default software version) to, or better than, the defective Covered Product detailed in the warranty claim (“Replacement Product”) and the terms of this Limited Product Warranty shall apply to any Replacement Products supplied by XXX under this Limited Product Warranty. A Replacement Product shall be the Customer’s sole and entire remedy in respect of any non-conformity of or defects in the Covered Products.

The Replacement Product shall be covered by this Limited Product Warranty for the remaining Warranty Period or three hundred sixty 360 days from the date of replacement, whichever is longer. Following a replacement, the Replacement Product will become the property of the Customer and the defective Covered Product shall become the property of XXX.

### **Standard Warranty Extension Procedure**

An inverters warranty extension should be included at no additional costs in order to totalize 10 years inverters warranty in total, starting from COD.

Any Extended Warranty shall be in accordance with and subject to the same terms and conditions as the standard Warranty Period.

## **3. Power Stations and switchgears**

Standard warranty period for 2 years.

This guarantee is granted exclusively under the same terms and conditions as those established in the guarantee documents granted by the respective manufacturers.

#### **4. Mounting structures**

**LIMITED WARRANTY OF PRODUCTS:** This warranty covers all products supplied by XXX to the Customer, according to the data provided by the Customer, the current technical specifications and quality standard.

##### **Warranty Terms**

1. Warranty period of 5 years for every commercial element of the structure (bearing set, basic station, anemometer, cable tray, bolts and nuts, washers, clamps, bonding straps, etc.).
2. Warranty period of 10 years for: Tracker Control Unit, Batteries, Actuators, Motors and any electronic/electrical element (For example: Relays, Contactors, Motor Starters, Fans Connectors, Cables, basic electrical board, etc)
3. Warranty period of 10 years for the structural set of elements which build the tracker up and have been manufactured in XXX.

##### **Warranty Conditions**

The warranty begins on the date of the last structure delivery at final destination -according to the contract- or the provisional acceptance of the installation in case XXX performs its assembly.

The following eventualities are expressly excluded from the above guarantees:

1. XXX does not provide any guarantee in relation to purely aesthetic appearance.
2. Damages resulting from the assembly and installation of structures when these activities are not made in accordance with the provisions established in different Maintenance or Installation Manuals provided by XXX.
3. Modifications, changes, or attempted repairs.
4. This product warranty is carried out complying with the specifications established in the Contract, in accordance with good practices and standards of a reasonable employer

#### **5. Main Transformer**

The warranty period is twenty-four (24) months from the delivery of the equipment in the conditions agreed, ending in any case the warranty of the equipment no later than thirty-six (36) months from the completion of the Factory Acceptance Tests (FAT) / from the provision of the teams.

If during the Warranty period it is necessary to repair or replace a defective part, the new Warranty period for that repaired or replaced part will start again from the date of completion of the repair of the anomaly, with a maximum limit of six (6) months after completion of the original warranty period of the set.

The warranty does not extend to natural wear and tear or damage which, after the transfer of risk, is produced by wrong treatment, negligence, excessive effort, inappropriate works, unsuitable subfloor, due to special external influences that do not are provided for in the Offer,

or for breach of the instructions contained in the manuals of original equipment manufacturer's operation and maintenance.

## **6. SCADA, Monitoring and Security Service CCTV**

Warranty is set to 2 years for all devices, and manufacturer's warranty for the rest of devices, unless different terms are indicated in the particular quote terms and conditions.

Warranty term will start since the acceptance of the system by the customer.

Warranty will include repairing the device or the system, but not recovering data or other damages that could be caused.

Warranty will assume all devices have been properly kept, used and installed, according to the documentation provided by the supplier, written on devices' datasheets.

This guarantee is granted exclusively under the same terms and conditions as those established in the guarantee documents granted by the respective manufacturers.
